## TEN PERSONS DAKOTA WRECK

### Crowded Passenger Plunged Into String of Box Cars

Bulletin Special.  
St. Paul, Minn., Dec. 24.—Ten persons are known to be dead, six fatally injured and at least twenty-five others were hurt in the wreck today of an eastbound accommodation train on the Minneapolis, St. Paul and Sault Ste. Marie railway at Enderlin, N.D. The train from Moose Jaw is due at Enderlin at 11:45 p.m., but last night it was about two hours late. The engineer was running at a high rate of speed in an endeavor to make up lost time. As his train rounded a curve just before reaching Enderlin a switch engine was seen shifting a train of box cars to a side track. The cars did not clear the main line track and the passenger train collided head on with the switch engine. Both engines were wrecked and the passenger cars were thrown in confusion down a steep embankment at the side of the track. Several of the day coaches were turned bottom side up and the passengers pinned beneath the wreckage, which took fire from the car stores. The passenger train was crowded with people going south to spend the holidays. Most of the casualties occurred in the smoking car and the first day coach, both of which were splintered. Enderlin is a divisional point of the road and a rescue party was soon at hand endeavoring to release the imprisoned passengers from their perilous position. Many persons were in imminent danger from the flames, which

were fast spreading through the cars. Axes were wielded by willing hands and the roofs of the overturned cars were soon broken open and the dead and injured taken out as quickly as possible. It was a race between the rescuers and the flames, but by herculean efforts all the injured were removed before the flames reached them. The dead have all been identified except one. Eight of those are as follows: Charles Backus, Bergr, N.D.; H. J. Valking, Anamoose, N.D.; John Satterberg, Anamoose, N.D.; Tony Gleason, Velva, N.D.; D. J. Bersford, Medicine Hat, Alberta; H. Rosenbaum, Velva, N.D.; W. J. Danielson, Sheldon, N.D.; A. O. Anderson, Starbuck, Minn., and one unidentified.

The whole flow of the river will be diverted and the water level raised six feet above present high water mark. ## NEW POST OFFICE SPLENDID BUILDING

Mayor May Reports That Contract Will be Let and Building Commenced Next Spring

Mayor May has returned to the city after an extended visit in Ottawa and other eastern cities and brings the good news that the new post office will be built in Edmonton next summer. The plans are completed, the tenders all in and it only remains for the order in council selecting the successful tender.

Mayor May states that the new building is to be a magnificent edifice, costing not less than \$25,000. "It will be four stories and a basement, the lower story and basement being of cut Tyndale stone and the three upper stories of the best class of Edmonton pressed brick with Tyndale stone trimmings and with cut stone columns between the windows. It will have a lift foot bridge on McDougall street with 125 feet of depth on Rice street. The contract will require the successful tender to start early in the spring.

Stating generally of the outlook Mayor May says his observations lead him to believe that next year in Edmonton is going to be one of the greatest building years ever experienced by any city in America. He believes that this year's operations, while pleasing and creditable will be completely overshadowed next year.

## ALBERTA WHEAT FOR THE ORIENT

### Five Hundred Tons For Hong Kong and Two Sample Cars For Japan

Bulletin Special.  
Calgary, Dec. 24.—The Canadian Pacific railway, through its general freight department, has just arranged for two important shipments of Alberta winter wheat to the Orient. One consignment of five hundred tons has been ordered by Hong Kong people through the Hall Elevator company, of Vancouver. This will go forward as quickly as the grain can be secured. It is expected to come mainly from Claresholm district, south of Calgary. Another shipment consists of two sample cars for Kobe, Japan. One car will contain all Alberta winter wheat. This order was secured by Calgary men in the milling business. F. W. Peters, general freight agent of the C. P. R., in an interview said his company was making special efforts to develop a large trade in wheat from Alberta, not in the eastern provinces, but to the Orient. The chief difficulty at present was the scarcity of wheat for seed and to get higher prices. One peculiarity of hard winter wheat as it grows in Alberta is that it gives better results if the seed is held twelve months. Some farmers, anxious for quick returns, have in the past used seed maturing in August for resowing in September. Experience shows this plan is not always successful and the best cultivators now keep their seed over until the following autumn. The crop of winter wheat next year is expected to be double that of the past season.

Bellefleur, Dec. 23.—Geo. Dawson, an old man supposed to be practically penniless, died in Tendinaga, recently. He had told those attending him to look under the seat of an old cutter in a drive house. They did so and found \$1,100 in bills. Further search revealed a coffee pot almost filled with gold coins. The find of the hoard amazed the searchers, as Dawson had lived for years in a penurious way, always denying himself the necessities of life. He made a will a few days before his death.

Glasgow, Dec. 24.—Edward Watson and Ritchie report cattle selling well; middling and inferior, very stiff trade; top quality, 18 to 12 1/2 cents per pound; secondary, 10 to 12 cents per pound; bulls, 9 cents per pound. ### CLOVER BAR BRIDGE NOW UNDER WAY

Forty Men Working on Cofferdams  
For Concrete Piers and Will be Completed in June

The May-Sharp Construction Co. have 40 men at work on the Clover Bar bridge, and will have 100 men at work within the next month. Timber and lumber for the cofferdams for the concrete piers is being hauled out from the Canadian Northern bridge at the Port. The piers will stand 95 feet above high water mark and the steel truss will stand 35 feet above the piers. The track floor will be almost on a level with the prairie, which is here about 140 feet above the river. Mr. May stated this morning that they expected to have the concrete piers completed and ready for the steel in June of 1907.  
Mr. May said that he had every confidence that the G.T.P. would be running trains into Edmonton next fall, at least from Portage la Prairie if not from the head of the lake. At the Portage he saw where they had \$150,000 worth of steel piled up to rush track-laying next spring, and a big gang of men ballasting on the section already laid from Portage to Minota. He said the only possible difficulty that would prevent itself to the G.T.P. as far as he could see was the trouble of getting enough labor to do the work they had laid out.

Wednesday—Sheep, hogs and dairy cattle—Black test.

### LIVE STOCK SALES

On Thursday, Dec. 20th Auctioneer Smith held a farm outfit clearance sale at Ray. There was a large crowd of horses and cattle, prices ruled very high with the seeming tendency of a higher move. The crowd had come from all directions and the auctioneer reports a strong demand for heavy teams.

On Friday the 21st this was the most important sale held this season at Mr. John Kennedy's farm, Poplar Lake. The sale was well attended, the bidding was brisk and a fair demand for cattle.

Auctioneer Smith said he had very little difficulty in disposing of the horses and claims to have secured under the hammer the highest price for teams this year. One black team sold for \$600, a pair of young mares sold for \$501, a heavy pair of geldings for \$452, an aged mare and young gelding brought \$350 several single mares and horses sold from \$150 to \$275. In cattle it is hard to average considering they were sold in bunches which were well mixed.

Mr. Kennedy was highly pleased with the prices and the manner in which the sale was conducted.

## World's Market

Minneapolis, Dec. 24.—Stocks which increased here 322,000 bushels for two days.

Chicago, Dec. 24.—Hop receipts 22,000 lbs. at Saturday's closing 14-15. Light 6.00 to 6.22 1-2; mixed 6.00 to 6.22 1-2.

Chicago, Dec. 24.—The rather free selling in the Northwest commission houses Saturday is supposed to be by holders who do not care to go over the holidays with open trades. The absorption of the dip was very good.

Chicago, Dec. 24.—The strong foreign markets and the continuous unfavorable Russian news pressage, together with the fact of the year. In the meantime nothing but small scalping profits are to be expected and the little dip will prove a nice place for the starting of a line of May or July wheat.

New York, Dec. 24.—It is generally assumed that the stock market for today for the rest of the week will be relatively quiet. It is true that there will be considerable buying and selling, which have been in control of the market and stock market.

Chicago, Dec. 24.—The covering of a small quantity of corn in the late hours Saturday gave a strong time to the market. The cash situation is to our mind the key to the situation and the least pressure can be brought to bear on some of the farmers and country merchants will likely see one of the strongest signs of a recovery in many years before the winter is over. The market is undoubtedly depressed and while it may take patience there is every reason to believe that the long slide will prove by far the most profitable for the long pull.

### WINTER RESORTS

(Montreal Daily Star)  
Mr. R. J. Thomas, of Edmonton is a man who takes an original view of the resort question, and while the view is entirely a new one—at least in so far as it has not been advocated previously—it is also an eminently reasonable one.

It is his opinion that the winter resort is going down south for the winter months to revel in the tropical climate of southern states, or the west India islands, or even to southern Europe, and about go up north to the cities of western Canada, and branch in this direction.

Mr. Thomas raised himself to the full extent of his five feet nine inches and squared his shoulders, and he earnestly looked anything but consumptive. "The whole trouble is," he continued, "that a lot of people have been deceived by that talk about 'Our Lady of the Snows,' into believing that Canada is little better than the North Pole as regards climate, but not so much that it makes any appreciable difference. The fact of the matter is that the climate of western Canada is not nearly so severe as that of New York state, for instance, and is incomparably more pleasant and healthful."

### DAILY STOCK LETTER

The stock market was quite active today and trading was very heavy for a half-day market. After opening at about the closing figures of yesterday, stocks became rather weak and closed weak at the lowest figures of the day. The weakness was caused principally by a vicious attack by professional shorts against Reading, which quickly declined over five points in the two short hours of today's session. His stock seems to be just now crackling in the hands of a clique of manipulators, and it may prove a market disturber until after the holidays are over, when doubtless the big interests and investors will again interest themselves and higher prices can then be expected. With this in view, we believe that purchases made during the coming week, on sharp breaks, will prove profitable.

### GRAIN

Winnipeg Delivery.  
Winnipeg, Dec. 22.—May options: open 7 1-2; close 7 1-4; July options: open 7 1-2; close 7 1-4.

Cash wheat—1 hard 74 3-4; 1 N. 73 1-4; 2 N. 70 7-8.  
Oats, cash—34 3-8.

### DAILY GRAIN SUMMARY

What—the desire to even up trades before the Christmas holiday led to considerable liquidation in this market today, and the light trade was unable to absorb the offerings except at reduced figures and the weakness became more and more apparent. The close was soft and after 7 1-2 below last night's close. The news was rather inclined to be bullish in character. Liverpool cables were 1-8 higher in spite of the slight decline on this side. North-west receipts were as small as ever. Primary receipts 665,000 bushels against 512,000 bu. last week and 676,000 bu. last year. Shipments 37,000 bu. 27,000 bu. last week and 36,000 a year ago. Clearances wheat and flour equalled 150,000 for the day. Today's decline was no doubt carried too far, and we believe that a good reaction will be witnessed, but we do not anticipate anything better than a trading market until after the first of the year, and that quick scalps on either side will prove profitable in the meantime.

RETURN FROM THE COAST

Mr. A. Williamson Taylor of this city, and who was a resident of Victoria, B. C. for a number of years has returned from a visit to that city. He says the people of Victoria are greatly agitated over the project of connecting Vancouver Island with the mainland. The Victoria Board of Trade desire to promote the scheme as part of the National transcontinental railway policy. The people of the city believe that such inducement should be made to railway companies to compel them to locate their terminals on Vancouver Island. There is a division of opinion as to the method of crossing the water stretches. The Colonist is supporting the proposal to bridge the water stretches, while the Times declares for a system of ferries whereby the trains can be carried across the entire distance of about 12 miles.

Mr. Taylor was interviewed by the Times as to the position the people of Edmonton would take in regard to the matter. Mr. Taylor assured the Times that the people of Edmonton were in favor of supporting the scheme of giving Victoria the location of the terminals of one of the transcontinental railways. Further, he states the plan to cross the water stretches by bridges to be too difficult to be feasible at the present time, involving as it does an expenditure of over \$10,000,000, but pronounces the ferry in favor of carrying the trains by ferry.

**JUVENILE HOCKEY**

**Give Me a Pound of****Blue Ribbon Tea**

That's the right way—the safe way to buy tea.

To ask for tea without specially mentioning Blue Ribbon, leaves you in danger of getting one of the many ordinary kinds—none of which would really satisfy you.

The rich flavor, fragrant aroma and sustaining strength of Blue Ribbon Tea make it well worth the trouble of asking for.

Look for the name "Blue Ribbon" on the package—your protection against substitutes.
